

Target Market Statement

Commercial Motor Agriculture

December 2023

Introductory statement

The FCA Product Intervention and Product Governance Sourcebook requires product manufacturers to share information about their products with their distributors. The aim is to ensure all products sold provide fair value and good customer outcomes. In order to do so a fair value assessment is undertaken. Following the assessment a Target Market Statement and a Fair Value Assessment Outcomes is produced. Both documents provide insight into who the product is designed for, who the product is not suitable for, main heads of cover and how it should be distributed.

HOW THE FAIR VALUE ASSESSMENT IS UNDERTAKEN

Victor's Product Management Policy sets out standards by which all its products are reviewed. The review is undertaken in conjunction with capacity providers to fully understand the products value for its target clients. Product data, distribution methods and product governance are among assessment criteria. On completion of the review the Target Market Statement and Fair Value Assessment are produced. These documents are available to Victor's brokers to ensure products are distributed correctly and fairly.
